COMMITTEE REPORT

Troy housing – sent a report to all from the attainable housing – not a lot of movement one big thing is RMW of course. We came up with a Mission Statement focusing on attainable housing for our work force. We are controlled by the County. There is more interest in this issue in our community right now than any other board I am involved in.

Buck – Thank you for stepping up – we as a board need to write a letter to CDPHE about how this is really affecting our community.

Lisa affordable verses attainable is there a guideline – Troy see report.

Trying to be creative on existing buildings that could be used to be converted housing (Spotted Pig is a location)

PUBLIC COMMENTS

TOWN OF SILVER CLIFF REGULAR BOARD MEETING
MINUTES FOR JUNE 6, 2023

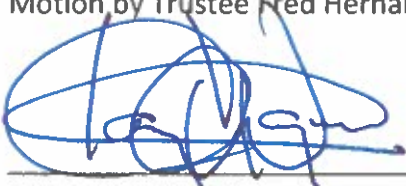

BOARD OF TRUSTEES OPEN COMMENT

Jake – Culvert in SCR there are some issues on the roads where they are plugged. Roger S - probably not before I am gone. I do have the equipment on the water truck to do this just not time.

Jordan – Do we have, or can we have an Ag first anyone that does anything with ag in our town so other cannot complain about noise from this. Jake – I thought there was already something in the state reg already but to have an ordinance might be an effective way to save the sheriff's office some time. Jordan will forward to all including Dan.

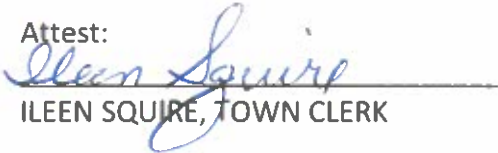

ADJOURN
